## SUMMARY

---

Data Analyst with a strong foundation in SQL, Excel, Python, and database management. Skilled in interpreting and communicating technical information to all levels of an organization. Dedicated to professional growth and delivering valuable insights.

## EXPERIENCE

---

### Contract Data Analyst

April 2024 – May 2024

*ASCENT - The Aviation Sustainability Center | Remote, WA*

- Developed a user friendly application to track and forecast Sustainable Aviation Fuel (SAF) production.
- Designed interactive visuals that allowed stakeholders to quickly gain insights on their key metrics.
- Collaborated with key stakeholder throughout the project life cycle, from concept design and requirements gathering to feedback incorporation and implementation.
- Automated data retrieval directly from the database within the app, enabling real-time updates and querying.

### Contract Data Analyst

Jan 2024 – March 2024

*ASCENT - The Aviation Sustainability Center | Remote, WA*

- Enhanced data storage for stakeholders tracking Sustainable Aviation Fuel (SAF) production by designing a scalable, organized, and secure database.
- Improved data tracking by modeling data through entity-relationship diagrams (ERD), designing a PostgreSQL database, and using ETL processes to transfer data.
- Utilized SQL for creating tables, querying data, data insertion, updates, and managing database structure.

### Data Consultant I

July 2023 – May 2024

*Washington State University | Remote, WA*

- My dashboard designs were praised for their high-quality and are now used to train WSU's data consultants on brand guidelines and effective dashboard creation.
- Conducted thorough data quality assessments and testing to detect and resolve anomalies and issues.
- Designed dynamic PowerBI dashboards, leveraging DAX for advanced calculations to showcase enrollment growth, student demographics, and course offerings data.
- Utilized Python to clean, aggregate, and prepare academic data for visualization.

### Team Lead

July 2020 – Feb 2021

*Western Exterminators | SeaTac, WA*

- Supervised a team of drivers, coordinating daily operations and implementing process improvements to boost productivity and customer satisfaction.
- Led warehouse tours and client meetings to plan service delivery, identify high-touch areas, and develop targeted disinfection strategies.
- Trained new employees to effectively navigate service routes and adhere to compliance protocols, ensuring operational efficiency and regulatory compliance.

## EDUCATION

---

**Washington State University | Global, WA**

May 2024

*B.S. Data Analytics, Minor in Business Management Information Systems*

*GPA 3.64*

**Pierce College | Lakewood, WA**

June 2020

*AA Pre-Nursing*

*GPA 3.8*

## SKILLS

---

**Technical Skills:** SQL, Python, Java, ASP.NET, Web Development (HTML, CSS, JavaScript), Database Design, Software Development, Database Management

**Analytical Skills:** Data Reporting, Data Visualization (Tableau, PowerBI), Data Analysis, Microsoft Excel, Problem-Solving

**Soft Skills:** Strong Interpersonal Communication, Project Management, Attention to Detail, Adaptability, Team Collaboration, Multi-tasking, Customer Service
